Quality Assurance Division

## Introduction

NAMICS engages in various activities under the following corporate philosophy: To achieve universal satisfaction and a prosperous natural environment through creativity and innovation.

One such activity is to develop sustainable societies. NAMICS recognizes the importance of continuing to create products designed with environmental aspects in mind—so-called eco-friendly products—in keeping with various social trends, including domestic and international environmental laws and regulations. Creating eco-friendly products is an increasing customer demand and a societal obligation.

To meet this demand, NAMICS must ensure that the raw materials, indirect materials, and other materials purchased by NAMICS help reduce environmental impact. The understanding and cooperation of its business partners are essential to this effort. In 2005, NAMICS established its Green Procurement Standards Document, which specifies the activities earnestly pursued with its partners to date. The Green Procurement Standards Document is now in its 17th edition. NAMICS asks its business partners for their continued understanding and cooperation with these efforts.

## Contents

1. NAMICS Environmental Policy
2. Positioning of the NAMICS Green Procurement Standards Document
  - 2.1 Objectives
  - 2.2 Basic policy
  - 2.3 Scope
  - 2.4 Confidentiality
  - 2.5 Revisions
3. Definition of Terms
  - 3.1 Raw materials, indirect materials, and other materials
  - 3.2 Environmentally hazardous chemical substances and related matters
  - 3.3 Regulated substances, reduced substances and managed substances
  - 3.4 Threshold limits, inclusion, and related topics
4. Criteria for managing environmentally hazardous chemical substances
5. Requirements for environmentally hazardous chemical substances
  - 5.1 Guarantee of Compliance
  - 5.2 Content of regulated substances, reduced substances or managed substances and corrective action plan for abolition
  - 5.3 Request for collaboration in data measurements and environmental audits
  - 5.4 Prior approval of changes
  - 5.5 Management by NAMICS business partners
6. Requirements regarding establishment of a management system for environmentally hazardous chemical substances at NAMICS business partners
  - 6.1 Environmental preservation efforts

## 1. NAMICS Environmental Policy

### Environmental Policy

Surrounded by plentiful agricultural fields, NAMICS CORPORATION is located in the eastern part of Niigata-city which has beautiful lagoons and rivers flowing into the Sea of Japan. Since being founded over 60 years ago, it has been preserving the abundant surrounding nature. Moreover, having the keyword S.E.E.D.S. (Semiconductor, Environment, Energy, Device and System), it has concentrated on the research and development of insulating and conductive materials for electronic components, and contributed to upgrading our lives and cultures with its great variety of products. Setting the following Environmental Policies as the basis of its activities, NAMICS aims at the realization of coexistence and mutual prosperity of various relations, like the relationship between society and nature.

1. NAMICS sets the Environmental Management as one of its most important projects, and takes its expanding social responsibilities through continuous improvements of its Environmental Management System to improve the environmental performance.
2. NAMICS familiarizes all employees with its Environmental Policies and encourages them to be conscious of environmental problems and to contribute to society.
3. NAMICS observes the regulations on Environmental Management. It also strives for the international cooperation based on the guidelines of related organizations, associations or those with which NAMICS has common principles, uses sustainable resource use, mitigate and adapt climate change, and protect biodiversity and ecosystem. Furthermore it aims at the prevention of pollution and disasters, and safe operation.
4. Regarding the following environmental conservation activities as the focus, NAMICS performs these environmental programs.
  - 4.1 Energy conservation
  - 4.2 Promotion of 3Rs, Reduce, Reuse, and Recycle
5. In order to reduce the environmental impact from NAMICS' products, the following is carried out.
  - 5.1 R&D, and design of products where environmental impact can be limited to as little as possible
  - 5.2 Reduction of environmental controlled chemical substances in products and the replacement of them with alternatives
  - 5.3 To minimize amounts of packing materials
  - 5.4 To strive to use environmentally-friendly materials
6. NAMICS sets medium-term environmental objectives matching with Environmental policy based on the evaluation results on the impact which NAMICS may have caused. It also plans environmental targets for each fiscal year, makes concrete action programs based on them and performs them.

NAMICS CORPORATION  
Toshinobu Odajima, President

## 2. Positioning of the NAMICS Green Procurement Standards Document

### 2.1 Objectives

To provide our customers with products that have low environmental impact, NAMICS has established the NAMICS Green Procurement Standards Document, a document that defines key issues in its relationships with business partners in the realm of materials procurement. In this way, NAMICS seeks to achieve green procurement.

### 2.2 Basic policy

NAMICS pursues partnerships with business partners with whom it can share environmental preservation activities through the following efforts:

- (1) Promoting procurement from business partners who prioritize environmental measures.
- (2) Promoting the procurement of raw materials and indirect materials with low environmental impact.

### 2.3 Scope

The NAMICS Green Procurement Standards Document applies to raw materials, indirect materials, and other materials used to manufacture the products produced by NAMICS. The NAMICS Green Procurement Standards Document also applies to the parties supplying these materials.

### 2.4 Confidentiality

NAMICS does not disclose documents or data submitted to NAMICS by its business partners to third parties without prior approval. NAMICS abides by all laws, regulations, and other rules regarding the appropriate handling of confidential or personal information concerning or belonging to its business partners.

### 2.5 Revisions

The NAMICS Green Procurement Standards Document is subject to revision in response to changes in various domestic and international laws and regulations, social demands, and technological advances.

## 3. Definition of Terms

### 3.1 Raw materials, indirect materials, and other materials

These terms refer to products and materials produced by NAMICS business partners and procured by NAMICS for the purposes below.

#### (1) Raw materials

Materials used by NAMICS as direct constituents of NAMICS products

(Examples: resins, metal powders, glass flits, pigments, solvents, and additives)

#### (2) Indirect materials

Materials delivered to customers as NAMICS products, excluding (1) raw materials as defined above.

(Examples: packing materials, including containers, bags, corrugated board, buffer materials, tape, labels)

#### (3) Other materials

Materials purchased by NAMICS but not remaining in or contained after production in NAMICS products (finished products).

(Example: cleaning agents used in manufacturing processes)

### 3.2 Environmentally hazardous chemical substances and related matters

#### (1) Environmentally hazardous chemical substances

Substances satisfying all of the following conditions:

- 1) Substances used by NAMICS as raw materials, indirect materials, or other materials in product manufacture
- 2) Substances known to harm the environment or human health whose control is required under laws and regulations or self-imposed standards
- 3) Substances specified in the related specification, “NAMICS Green Procurement Standards Environmentally Hazardous Chemical Substances List” (the latest version).

#### (2) Halogen-free

When things including halogen are incinerated, they often denature to hazardous substances, for instance, to generate dioxin. The movement to provide halogen-free products has been promoted in recent years.

NAMICS has been aiming at the increase of the ratio of halogen-free products and sets the threshold limits as follows in accordance with the IEC61249-2-21.

Cl < 900 ppm、Br < 900 ppm、Cl + Br < 1500 ppm

Though these criteria are not the requirements to our business partners, we require you to provide the latest halogen content information so that NAMICS sustains its operations and businesses.

### 3.3 Regulated substances, reduced substances and managed substances

#### (1) Regulated substances

- 1) Level 1: Regulated substances whose inclusion in items purchased by NAMICS at or above the threshold limit is not accepted.
- 2) Level 2: Regulated substances whose presence in products is permitted only if specific conditions are met, but the inclusion at or above threshold limit is prohibited like those classified as Level 1.

In the case that technical factors (for example, the absence of alternative materials) require the use of such substances; substances that are not classified as Level 1 regulated substances based on concentration rate, parts to which the substances are used, purpose, and abolition date due to the following matters:

- Laws and regulations
- NAMICS customer requirements
- NAMICS policy

#### (2) Reduced substances

Refers to substances whose potential classification to Level 2 in the future should be considered by following the trends of the social environment and/or laws and regulations though the immediate prohibition nor regulation of their inclusion is not required at this time. The substances whose inclusion in products should be avoided or reduced as much as possible.

#### (3) Managed substances

Refers to substances whose inclusion does not need to be prohibited nor regulated, but that require the knowledge of data on presence and, if present, the concentrations at which they are present. These substances are subject to surveys when used intentionally or if they are known to be contained in materials. (Example: chemSHERPA declarable substances)

### 3.4 Threshold limits, inclusion, and related topics

#### (1) Threshold limits

Threshold limits are the maximum limit of concentration of chemical substances contained in a homogeneous material.

- 1) A “homogeneous material” is a material that cannot be mechanically divided into separate materials.
- 2) “To divide mechanically” means to separate the material by mechanical means; for example, by unscrewing, cutting, crushing, grinding, or polishing.

(2) Contained (Inclusion)

The substance contained in raw materials or indirect materials due to intentional or unintentional addition, filling, mixing, or adhesion.

(3) Known inclusion

Refers to the state in which the inclusion of an Environmentally Hazardous Chemical Substance(s) is informed by a supplier or is confirmed based on some data.

(4) Intentional use

Refers to the intentional use of a chemical substance in a raw material, an indirect material, or when manufacturing other materials in order to realize specific characteristics, appearance, or quality. However, the case shall be excluded where the used substance is not present in a finished product.

(5) Compliance

Refers to the state in which regulated substances are not included, or the included amount is below the threshold limit.

(6) Impurity

An impurity is a substance contained in natural materials and not removable by current methods or techniques via refining processes; or a substance unintentionally formed as a byproduct in synthesizing processes; or a substance remaining unreacted and not removable by current methods or techniques.

4. Criteria for managing environmentally hazardous chemical substances

Refer to the related specification, “NAMICS Green Procurement Standards Environmentally Hazardous Chemical Substances List”.

5. Requirements for environmentally hazardous chemical substances

NAMICS requires its business partners to meet the following requirements:

When the vendor is not the manufacturer, NAMICS requires the manufacturer to meet the requirements. In this case, the manufacturer shall be in charge of the procedure required for the vendor in the following.

5.1 Guarantee of compliance

Guarantee the following about Product.

- 1) Regulated substances are not included, or the included amount is below the threshold limit.

5.2 Content of Environmentally Hazardous Chemical Substances and corrective action plan for abolition

- (1) If the following applies, inform NAMICS of the content of the relevant substance and actions currently proposed to remove them:

- 1) The products contain a regulated substance or a reduced substance.

- (2) If the following applies, inform NAMICS of the content of the relevant substances:

- 1) The products contain managed substances.

- (3) If the following applies, inform NAMICS of all the contents of the relevant substances in an affected product(s)

- 1) The product(s) contains Cl and Br.

### 5.3 Request for collaboration in data measurements and environmental audits

Regarding the previous sections 5.1 and 5.2, NAMICS may require business partners to submit measurement data. NAMICS may also ask the partner to perform environmental audits.

### 5.4 Prior approval of changes

Submit written documents to NAMICS for approval before changing any of the following :

- (1) Raw materials used (constituents of products supplied by NAMICS business partners)
- (2) Composition
- (3) Manufacturing methods (processes), facilities, locations

### 5.5 Management by NAMICS business partners

Take the following measures as part of measures to comply with the requirements of the previous sections 5.1 to 5.4: (Refer to Section 6 below for more information.)

- (1) Green procurement of raw materials
- (2) Pre-shipment inspection of products as required
- (3) Both (1) and (2) above when changing suppliers

## 6. Requirements regarding establishment of a management system for environmentally hazardous chemical substances at NAMICS business partners

To promote green procurement, NAMICS imposes the following requirements to its business partners.

### 6.1 Environmental preservation efforts by business partners

- (1) NAMICS business partners must have obtained ISO 14001 certification or be in the process of doing so.
- (2) NAMICS business partners must take concrete steps to promote green procurement or have plans to do so.
- (3) If a NAMICS business partner has not received ISO 14001 certification, NAMICS asks that the partner take the following environmental measures that would meet ISO 14001 standards:
  - 1) Corporate philosophy
    - Establish a corporate philosophy on environmental preservation.
    - Establish a policy for environmental preservation and commit to continual improvement and prevention of pollution.
    - In the environmental policy, state a clear commitment to compliance with environmental laws and regulations.
    - Make sure the environmental policy is thoroughly communicated to all employees and available for review by third parties.
  - 2) Organization and plans
    - Set targets and objectives for environmental preservation.
    - Assign specific teams and persons in charge to achieve targets and objectives.
    - Develop action plans to achieve targets and objectives.
  - 3) Measures for environmental aspects
    - Manage and evaluate the following items below and seek to achieve improvements:  
Air pollution, water pollution, noise and vibration, managed substances, and reductions in waste generation  
Energy consumption (e.g., electricity, gas, fuel)
  - 4) Training, education, and provision of information
    - Provide training and education on environmental issues.
    - Provide training and education to personnel engaged in tasks that pose the risk of significant environmental impact.
    - Provide information to the public related to environmental preservation.

#### 5) Rationalized distribution

- Work on reducing, reusing, recycling materials, and optimizing transportation.

### 6.2 Product management at NAMICS business partners

#### (1) Managing defective products

On identifying non-conforming products, clarify (identify and isolate) the corresponding lot and clearly separate it from conforming products to prevent accidental release of non-conforming products.

#### (2) Work management

In manufacturing processes (including secondary processes), always abide by work rules to avoid the production of non-conforming products.

#### (3) Managing materials and purchases

Set clear criteria when selecting raw materials and composition. Procure raw materials based on these criteria.

#### (4) Managing environment preservation

Take appropriate action to move toward zero emissions (including the 3Rs) to ensure the most efficient use of resources and to reduce CO2 emissions from energy consumption, thereby helping to prevent global warming.

#### (5) Traceability

Retain shipping histories as records to allow tracing back to raw material lots. Be prepared to submit these records when requested to do so.

#### (6) Change management

Before changing raw materials, processes, or locations, assess the potential effects of the change to avoid the occurrence of unforeseen problems. Submit the Change Application Sheet (for supplier) to NAMICS and proceed only after obtaining approval from NAMICS.

### 7. Surveys

To promote green procurement, NAMICS undertakes surveys at regular and irregular intervals in accordance with the NAMICS Green Procurement Standards Document.

#### 7.1 Objectives

The purpose of the survey is to confirm that the requirements set forth in the sections 5 and 6 are met.

#### 7.2 Scope

The survey addresses products from NAMICS business partners when NAMICS or companies specified by NAMICS procure these products directly or through a third party for use as raw materials, indirect materials, or other materials.

#### 7.3 Method

As part of the survey, NAMICS asks its business partners to respectively submit information on the presence of environmentally hazardous chemical substances in all products (procured from NAMICS business partners) used by NAMICS as raw materials, indirect materials, or other materials.

#### 7.4 Documents to be submitted

##### (1) Receipt confirmation (Attached Form 1)

Return the receipt confirmation immediately after downloading and confirming the latest editions of the NAMICS Green Procurement Standards Document and Environmentally Hazardous Chemical Substances List of the NAMICS Green Procurement Standards from NAMICS website. (When the vendor is not the manufacturer, the manufacturer shall confirm the latest editions.)

(2) Compliance certificate (Attached Form 2)

Regarding the regulated substances specified in Environmentally Hazardous Chemical Substances List of the NAMICS Green Procurement Standards, if the substance(s) contained in your product complies with the threshold limit(s), select 'Compliance' under 'Category' of Product List, and submit only p.1 of Compliance Certificate.

If a regulated substance is contained in your product, select what applicable under 'Category' of Product List, report your view about the corrective action plan for their complete abolition in the following pages, and submit Compliance Certificate. (The corrective action plan shall include the counter-measures or alternative substances, etc. If their inclusion has to be continued, report the reason(s).)

If your product does not comply with NAMICS requirements, (2) of 8 of this Standard shall be applied.

(3) Analytical data

As supporting evidence, submit the results of analysis when issuing document (2) Compliance certificate above.

1) In principle, the data must have been acquired within one year preceding the date of issue of document (2).

2) Analytical methods shall follow international standards. (Analysis examples are listed below.)

- Cadmium, lead, mercury: ICP-AES
- Hexavalent chromium: UV-VIS
- PBBs and PBDEs: GC-MS
- Phthalates: GC-MS

Each analytical detection limit shall comply with NAMICS' guarantee-required value.

3) For inorganic materials and metal materials, total bromine measurements by XRF may be used for PBB and PBDE measurements.

4) Data must be obtained by third-party analysis or by in-house analysis meeting requirements equivalent to third-party analysis.

5) The analytical data must provide a full account of pretreatment methods and analysis flowcharts.

- Analysis date
- Analysis pretreatment and Test method
- Test result and detection limit of each analysis item
- Analytical flow chart

6) The substances to be analyzed are as follows:

- All the materials.
- Required items: Six substances of lead, mercury, cadmium, hexavalent chromium, PBBs, PBDEs and Four Phthalates of DEHP, BBP, DBP and DIBP.

(4) Chemical composition table and the global registration statuses (Attached Form 3)

1) The chemical composition table is required to clearly indicate composition.

2) Fill in the table so that the constituents total 100%.

List indirect materials categorized by parts. Make the total 100% per part.

3) Provide the following information on the Environmentally Hazardous Chemical Substances:

- Reference number

For the substance which is specified in the "Environmentally Hazardous Chemical Substances List of the NAMICS Green Procurement Standards", provide the reference number specified in the List.

For the substance which is NOT specified in the Environmentally Hazardous Chemical Substances List, specify "Non-applicable" instead of providing the reference No.

- Scope of report

When it is already known that Environmentally Hazardous Chemical Substances are included regardless of whether it is intentional or unintentional, report all relevant

substances even if the amount is below the threshold limit.

- CAS number  
When the substance specified in “NAMICS Green Procurement Standards Environmentally Hazardous Chemical Substances List” has a CAS number, provide the number.
- The included amount  
When the included amount has a certain range, or it is not clear, provide “the maximum amount estimated based on design”
- Classification of inclusion and its application/purpose  
Provide all reasons for the inclusion of the Environmentally Hazardous Chemical Substances, including whether the inclusion is intentional or unintentional, or whether it is contained as an impurity, etc.
- Information of Halogen inclusion  
Following the requirement of 3.2, provide all the information of Cl and Br intentionally or unintentionally included in an affected product(s). Regarding how to specify their amounts, please refer to ‘The included amount’ above.

4) Provide the global registration statuses in the existing chemical substances lists so that NAMICS can judge whether it is possible to export an affected product.

When the Application/ Purpose of inclusion is “impurity”, its global registration statuses do not have to be considered. It is also unnecessary to provide the registration statuses of indirect materials, since they are not subject to the survey.

When there is a country to which the export of an affected product is impossible because the relevant substance is not registered in their list, inform NAMICS of whether you will cooperate with us when we need to declare the substance to the country in the future.

5) Provide information on the country of origin to verify an affected product under the US Export Administration Regulations (EAR) and Export Control Law of the People’s Republic of China.

(5) SDS (Safety Data Sheet)

1) Submit SDS (Safety Data Sheet) in a form that meets the requirements of JIS Z 7253 in principle.

(6) chemSHERPA

chemSHERPA, which is an information transfer scheme developed by Ministry of Economy, Trade and Industry for the chemical substances in products throughout supply chain, is also required if document (2) Compliance certificate above is issued to clarify the details of substances contained in products. List all known substances intentionally or unintentionally contained in products.

1) Check to confirm that you have the latest revision before using chemSHERPA. You can download the latest version at the following link:

<https://chemsherpa.net/english/tool>

2) When you create chemSHERPA, pay attention to the following.

- When raw materials and others are subject to the survey, use the chemical data entry support tool (chemSHERPA-CI), and submit the chemSHERPA in both of a shci file and a PDF file converted from an excel sheet
- When indirect materials are subject to the survey, use the molded item data entry support tool (chemSHERPA-AI), and submit it in shai file.

3) Submit chemSHERPA, created using the data entry support tool. The version of the tool shall be the latest at your receiving our requirement.

(7) Questionnaire on the chemical substances management system in place (Attached Form 4)

As specified in section 6, Requirements regarding establishment of management system for environmentally hazardous chemical substances at NAMICS business partners, NAMICS asks its partners to self-monitor the status of their established systems. Based on the results of this self-check, NAMICS may visit manufacturer's sites to perform audits.

#### 7.5 Submission time

Submission time		When initiating transactions	At regular survey (Raw materials)	At regular survey (Indirect materials)	As required	Remarks
Document	Form					
Receipt confirmation	Attached Form 1	○	○	○	○	Must be returned immediately after receiving the document set.
Compliance certificate	Attached Form 2	○	○	○	○	
Analytical data	No specified form	○	○	○	○	
Chemical composition table and Global registration status	Attached Form 3	○	○	○※	○	
SDS	JIS	○	△	△	△	
chemSHERPA-CI (for raw materials and others) chemSHERPA-AI (for indirect materials)	Common form	○	○	○※	○	
Questionnaire on the chemical substances management system in place	Attached Form 4	○	△	△	△	

○: Required. △: Required only when changed.

※ Either of 'Chemical composition table and Global registration status' or 'chemSHERPA' are/is acceptable.

- (1) NAMICS requires new business partners to submit all documents at least once.
- (2) "At regular survey" refers to responses submitted for the annual regular survey.  
The results of the previous or before the previous survey are not acceptable.  
Ensure that you conduct the survey at every annual survey, and submit the latest results.
- (3) "As required" refers to the following cases:
  - 1) If the relevant laws and regulations are revised and the revision requires this action
  - 2) If chemSHERPA declarable substances are revised and the revision requires this action
  - 3) If any of the below applies and any change is implemented
    - Previous section 5.4, Prior approval of changes
    - Previous section 5.5, Management by NAMICS business partners
  - 4) If the established system is strengthened/upgraded
  - 5) Other cases in which NAMICS or business partners perceive a need

#### 8. Measures in response to survey results

NAMICS will act as follows if it has concerns regarding the previous section 7.4:

- (1) While reviewing the chemical substances management system in place (Attached Form 4), NAMICS will ask its business partners to make improvements if it deems necessary to promote green procurement.
- (2) If the Compliance certificate (Attached Form 2) cannot be issued, NAMICS will require its business partners to provide the document(s) which they can submit. Then NAMICS will make a decision after consulting with the relevant business partner to determine if alternative substances present technical obstacles.

## 9. Attached documents

### 9.1 List of attached documents

#### (1) Green procurement survey form

Attached Form 1 Receipt confirmation

Attached Form 2 Compliance certificate

Attached Form 3 Chemical composition table and Global registration status

Attached Form 4 Questionnaire on the chemical substances management system in place

#### (2) Related specification

NAMICS Green Procurement Standards Environmentally Hazardous Chemical Substances List

### 9.2 Distribution of the latest editions

(1) At a regular survey, NAMICS informs you of the revision of NAMICS Green Procurement Standards Document and related Forms listed in 9.1 above. When you receive the information, download the files from NAMICS website

(2) NAMICS provides documents as indicated in (1) above at the occasional survey.

## ■ Documents to be submitted

Please confirm the following Remarks for each Form and issue them.  
For more information, please refer to 7.4 "Documents to be submitted"  
in NAMICS Green Procurement Standards.

Form		When initiating transactions	At regular survey (Raw materials)	At regular survey (Indirect materials)	Remarks
NAMICS own form	Form -1 Receipt Confirmation	○	○	○	・ Please submit a PDF file of the signed form immediately after receiving a set of NAMICS Green Procurement Standards.
	Form -2 Compliance certificate	○	○	○	・ After filling this form, please submit a PDF file of the signed form.
	Form-3 Chemical composition table and Global registration status	○	○	○*	・ Please report composition information no matter whether each substance's concentration is within allowable concentration if you have the information. ・ Please submit the filled <b>Excel file</b> . (Your signature is not needed for this form)
	Form-4 Questionnaire on the chemical substances management system in place	○	△	△	・ After filling this form, please submit a PDF file of signed form.
Common form	chemSHERPA-CI (for raw materials and others)	○	○	-	・ Please download the latest form from the following web site. <a href="https://chemsherpa.net/chemSHERPA/english/tool/">https://chemsherpa.net/chemSHERPA/english/tool/</a>
	chemSHERPA-AI (for indirect materials)		-	○*	・ Please report composition information no matter whether each substance's concentration is lower than 1000 ppm if you have the information.
No specified form	Analytical data	○	○	○	・ Please submit the analytical data according to the classification of your supplies;  ■ Raw material / Other material : "Lead, Mercury, Cadmium, Hexavalent chromium, PBB, PBDE" and "DEHP, BBP, DBP, DIBP"  ■ Indirect material : "Lead, Mercury, Cadmium, Hexavalent chromium"
JIS	SDS	○	△	△	・ Please use and submit the form complying with JIS Z 7253. ・ Please prepare SDS which meets the recent domestic laws and regulations. ・ Please submit SDS in English if possible in addition to in Japanese.

○: Required. △: Required only when changed.

\*: Either of 'Chemical composition table and Global registration status' or 'chemSHERPA' are/is acceptable.

# Receipt Confirmation

We wish to acknowledge our receipt of the following documents:

- NAMICS Green Procurement Standards Document 17th Edition
  - Attached Form 1 Receipt confirmation
  - Attached Form 2 Compliance certificate
  - Attached Form 3 Chemical composition table and Global registration status
  - Attached Form 4 Questionnaire on the chemical substances management system in place
- Related specification: NAMICS Green Procurement Standards Environmentally hazardous chemical substances list

※ Please fill in the parts in yellow.

Quality Assurance Division NAMICS CORPORATION

## **NAMICS Green Procurement Standards Compliance certificate**

**We guarantee that the delivered products satisfy the latest NAMICS Green Procurement Standards with the following Category.**

■ **Compliance:** All Level 1 and Level 2 substances in the product meet the threshold limit (the maximum allowable concentration).

■ **Conditional compliance:** The product contains all Level 1 substances within the threshold limit, but contains Level 2 substances over the threshold limit.  
We will strive to implement countermeasures as described in "2-Report the details of substance usage".

■ **Non compliance:** The product contains Level 1 substances over the threshold limit. Or the product contains all Level 1 substances within the threshold limit (the maximum allowable concentration), but contains Level 2 substances over the threshold limit.  
Furthermore, for the reasons stated in "2-Report the details of substance usage", it cannot be avoided to use these substances.  
We will maintain the present status.

※ Please fill in the parts in yellow.

● How to fill in Form 2 (1) Fill in product name(s) in Product List.

(2) Check the compliance status to 'NAMICS Green Procurement Standards Environmentally hazardous chemical substances list', fill in 'Category' in Product List.  
※ When the 'Category' is 'Compliance', no action is needed for the following (3).

(3) Fill in 'Result' of 1-1 and 1-2 respectively in the following pages.

When a product contains any regulated substance over the threshold limit (maximum limit of concentration), select "Non compliance" under 'Result'. Then report the detailed information in '2. Report the details of substance usage'.

When a product is out of Scope, select "Not applicable" under 'Result'.

When more than one product are surveyed and their results include "Non compliance" and "Not applicable", select "Non compliance" under 'Result'.

(4) A person in charge at your company shall sign in the signature space below. Then submit this form to NAMICS.

※ If the compliance status to 'NAMICS Green Procurement Standards Environmentally hazardous chemical substances list' is already checked otherwise, and the Category is 'Compliance', it is not necessary to submit after page 2.

## 1. Ensuring the conformity of environmental hazardous chemical substances.

### 1-1. Regulated substances (Analytical data is required as supporting evidence of "Not contained".)

Reference №	Substances Name	Analyzed target	CAS No.	Regulated Level	Scope	Threshold limits (maximum limit of concentration)	Result
P1001	Cadmium and its compounds	Raw materials and Other materials	—	Level 1	Parts composed of metals containing zinc (e.g. brass, hot dip galvanizing, etc.)	less than 100 ppm	
					All uses other than the above column	Less than 5ppm	
P1002	Lead and its compounds		—	Level 1	All uses other than the column below and lead type glass frit	Less than 100ppm	
					Parts composed of metals containing tin (e.g. solder, etc.)	Equal to or less than 500ppm	
P1003	Mercury and its compounds	Indirect materials	—	Level 1	All uses	Less than 2ppm	
P1004	Hexavalent chromium compounds		—	Level 1	All uses	Less than 10ppm	
P1005	Total-concentration of four heavy metals (cadmium, lead, mercury, and hexavalent chromium) contained in packaging components and materials		—	Level 1	All indirect materials	"Less than 50 ppm" is determined as the allowable total-concentration of four heavy metals (cadmium, lead, mercury, and hexavalent chromium) contained in each part, ink, or paint that constitutes a package.	
P1006	Polybrominated biphenyls (PBB)		—	Level 1	All uses	Less than 1000ppm	
P1007	Polybrominated diphenylethers (PBDE) (including decabromodiphenyl ether (DecaBDE))	All materials	—	Level 1	All uses	Less than 1000ppm	
P1033	Specific phthalates (DEHP/DBP/BBP/DIBP)		refer to Appendix-1.4	Level 1	All uses	Less than 50ppm	

Note:

### 1-2. Regulated substances (Analytical data is NOT required as supporting evidence of "Not contained".)

Reference №	Substances Name	CAS No.	Regulated Level	Scope	Threshold limits (maximum limit of concentration)	Result
P1008	Hexabromocyclododecane (HBCDD)	25637-99-4 3194-55-6 134237-50-6 134237-51-7 134237-52-8	Level 1	All uses	Less than 50ppm	
P1009	Polychlorinated biphenyls (PCB)	—	Level 1	All uses	Less than 50ppm	
P1010	Polychlorinated naphthalenes (PCN)	—	Level 1	All uses	Less than 1000ppm	
P1011	Polychlorinated terphenyls (PCT)	—	Level 1	All uses	Less than 50ppm	
P1012	Chlorinated paraffins (CP)	85535-84-8 84082-38-2 71011-12-6 85536-22-7 85535-85-9 85535-86-0	Level 1	All uses	Less than 1000ppm	
P1013	Polyvinyl chloride (PVC) and PVC blends	—	Level 1	All uses (Exemption-Insulating tapes, labels)	Less than 1000ppm	
P1014	Hydrofluorocarbon (HFC), Perfluorocarbon (PFC), Sulfur hexafluoride(SF6)	—	Level 1	All uses	Less than 1000ppm	
P1015	Ozone depleting substances (ODS)	—	Level 1	All uses	Less than 1000ppm	
P1016	Hydrochlorofluorocarbon (HCFC)	—	Level 1	All uses	Less than 1000ppm	
P1017	Perfluorooctane sulfonates (PFOS) and individual salts and related substances of PFOS	—	Level 1	All uses	Less than 1000ppm	
P1018	Perfluorooctanoic Acid (PFOA) and individual salts and related substances of PFOA	refer to Appendix-1.1	Level 1	All uses	0.000025 wt% (25ppb) total sum of PFOA, and its individual salts and related substances.	
P1019	Beryllium and its compounds	—	Level 1	All uses	Less than 1000ppm	
P1020	Cobalt dichloride	7646-79-9	Level 1	All uses	Less than 1000ppm	
P1021	Arsenic and its compounds	—	Level 1	All uses	Less than 1000ppm	
P1022	Asbestos	—	Level 1	All uses	Less than 1000ppm	

P1023	Specific azo compounds (Azodyes that form specific amine compounds and specific amine compounds.)	refer to Appendix-1.2	Level 1	All uses	Less than 30ppm	
P1024	Formaldehyde	50-00-0	Level 1	All uses other than impurities or unreacted components	Less than 300ppm	
P1025	Benzenamine, N-phenyl-, reaction products with styrene and 2,4,4-trimethylpentene (BNST)	68921-45-9	Level 1	All uses	Not intentionally added	
P1026	Dimethyl fumarate (DMF)	624-49-7	Level 1	All uses	Less than 0.1ppm	
P1027	Specific Polycyclic aromatic hydrocarbons (PAHs)	refer to Appendix-1.3	Level 1	All uses	Less than 1ppm	
P1028	Benzene	71-43-2	Level 1	All uses	Less than 1000ppm	
P1029	Hexachlorobenzene	118-74-1	Level 1	All uses	Less than 1000ppm	
P1030	Minerals from Conflict-Affected and High-Risk Areas(CAHRAs) <a href="https://www.cahraslist.net/cahras">https://www.cahraslist.net/cahras</a> (Gole, Tin, Tantalum, Tungsten and Cobalt, Mica)	—	Level 1	All uses	Not intentionally added	
P1031	Radioactive substances [Uranium (U), Plutonium (Pu), Radon (Rn),Americium (Am), Thorium(Th) , Cesium(Cs) , Strontium (Sr),etc.]	—	Level 1	All uses	Less than 1000ppm	
P1032	Red phosphorus / Yellow phosphorus	—	Level 1	All uses	Less than 1000ppm	
P1034	Tris(2-chloroethyl) phosphate (TCEP) Tris (1-chloro-2-propyl) phosphate (TCPP) Tris(1,3-dichloro-2-propyl)phosphate (TDCPP)	115-96-8 13674-84-5 13674-87-8	Level 1	All uses	Less than 1000ppm	
P1035	Perfluorohexanoic acid (PFHxA) and its salts and related substances	—	Level 1	All uses	Not intentionally added	
P1036	Decabromodiphenylethane (DBDPE)	84852-53-9	Level 1	All uses	Not intentionally added	
P1037	1,6,7,8,9,14,15,16,17,17,18,18-Dodecachloropentacyclo[12.2.1.1.6,9.0	—	Level 1	All uses	Not intentionally added	
P1038	Long-chain perfluoroalkyl carboxylate (LCPFACs) and perfluoroalkyl sulfonate chemicals	—	Level 1	All uses	Not intentionally added	
P1039	TSCA Priority chemicals (PBT, First 10 Chemical Substances)	refer to Appendix-1.5	Level 1	All uses	Not intentionally added	
P1040	Acrylamide (monomer)	79-06-1 2680-03-7	Level 1	All uses	Less than 5ppm	
P1041	Dioxins and Furans	refer to Appendix-1.6	Level 1	All uses	Not intentionally added	
P1042	Chlorinated Phenols	refer to Appendix-1.7	Level 1	All uses	Less than 0.1ppm	
P1043	Colorants	refer to Appendix-1.8	Level 1	All uses	Less than 20ppm	
P1044	Perfluorohexanoic acid (PFHxA) and its salts and related substances	—	Level 1	All uses	Less than 100ppm	
P1045	Methyl-phenol compounds	95-48-7 106-44-5 108-39-4 1319-77-3	Level 1	All uses	Less than 10 ppm total content	
P1046	Pesticides	refer to Appendix-1.9	Level 1	All uses	Less than 0.5 ppm total sum of pesticides	
P1047	UV stabilizers	3846-71-7 3864-99-1 25973-55-1 36437-37-3	Level 1	All uses	Less than 1000ppm	
P1048	Long-chain perfluorocarboxylic acids (PFCAs) C9-C20 and its salts and related substances	—	Level 1	All uses	Not intentionally added	
P1049	Perfluorocarboxylic acid (PFCAs) C9-C14 and its salts and related substances	—	Level 1	All uses	0.0000025 wt% (25ppb) total sum of PFCAs, and its individual salts and related substances.	
P1050	Halogenated diphenyl methanes	76253-60-6 81161-70-8 99688-47-8	Level 1	All uses	Less than 1ppm	
P1051	Natural rubber, latex	—	Level 1	All uses	Not intentionally added	
P1052	Perchlorates	7601-89-0 7778-74-7 7790-98-9 7791-03-9 10034-81-8	Level 1	All uses	Less than 0.1 ppm total content	
P1053	Tetrabromobisphenyl A (TBBA, TBBPA)	79-94-7	Level 1	All uses	Less than 900 ppm as bromine	
P2001	Organotin Compounds	refer to Appendix-1.10	Level 2	All uses	Less than 1000 ppm total content	
P2002	Acrylates monomers Group1	refer to Appendix-1.11	Level 2	All uses	Less than 1000ppm	
P2003	PFAS (Per-and Polyfluoroalkyl Substances) Substances containing at least one aliphatic -CF2 or -CF3	—	Level 2	All uses	Less than 1000ppm	
P2004	Biocides	refer to Appendix-1.12	Level 2	All uses	Not intentionally added	
P2005	Perfluorobutanesulfonic acid (PFBS) and its related substances	—	Level 2	All uses	Less than 1000ppm	

The reference No. of regulated substances which are used in the products.

**Appendix-1.1 List of Perfluorooctanoic Acid (PFOA) and individual salts and esters of PFOA**

Substances	CAS No.
Pentadecafluorooctanoic acid	335-67-1
Ammonium pentadecafluorooctanoate	3825-26-1
Sodium pentadecafluorooctanoate	335-95-5
Potassium perfluorooctanoate	2395-00-8
Silver(1+) perfluorooctanoate	335-93-3
Pentadecafluorooctyl fluoride	335-66-0
Methyl perfluorooctanoate	376-27-2
Ethyl perfluorooctanoate	3108-24-5
PFOA related substances	-

**Appendix-1.2 Specific azo compounds****(Azodyes that form specific amine compounds and specific amine compounds.)**

Substances	CAS No.
4-aminodiphenyl	92-67-1
benzidine	92-87-5
4-chloro-o-toluidine; 4-chloro-2-methylaniline	95-69-2
2-naphthylamine	91-59-8
o-aminoazotoluene	97-56-3
2-amino-4-nitrotoluene; 5-nitro-o-toluidine	99-55-8
p-chloroaniline	106-47-8
2,4-diaminoanisole	615-05-4
4,4'-diaminodiphenylmethane; 4,4'-methylenedianiline	101-77-9
3,3'-dichlorobenzidine	91-94-1
3,3'-dimethoxybenzidine	119-90-4
3,3'-dimethylbenzidine	119-93-7
3,3'-dimethyl-4,4'-diaminodiphenylmethane; 4,4'-diamino-3,3'-diphenylmethane	838-88-0
p-cresidine; 6-methoxy-m-toluidine	120-71-8
4,4'-methylene-bis-(2-chloroaniline)	101-14-4
4,4'-oxideaniline	101-80-4
4,4'-thiodianiline; 4,4'-diaminodiphenylsulfide	139-65-1
o-toluidine	95-53-4
2,4-toluylenediamine; 4-methyl-m-phenylenediamine	95-80-7
2,4,5-trimethylaniline	137-17-7

o-anisidine	90-04-0
4-aminoazobenzene	60-09-3
4-Chloro-2-toluidine hydrochloride	3165-93-3
2,4-Diaminoanisole sulfate	39156-41-7
2-Naphthylamine acetate	553-00-4
2,4,5-Trimethylaniline hydrochloride	21436-97-5
2,4-Xylidine	95-68-1
2,6-Xylidine	87-62-7

#### Appendix-1.3 List of Specific Polycyclic aromatic hydrocarbons (PAHs)

Substances	CAS No.
Benzo[a]pyrene	50-32-8
Benzo[e]pyrene	192-97-2
Benzo[a]anthracene	56-55-3, 1718-53-2
Chrysene	218-01-9
Benzo[b]fluoranthene	205-99-2
Benzo[j]fluoranthene	205-82-3
Benzo[k]fluoranthene	207-08-9
Dibenzo[a,h]anthracene	53-70-3

#### Appendix-1.4 List of Specific phthalates (DEHP/DBP/BBP/DIBP)

Substances	CAS No.
Bis (2-ethylhexyl)phthalate; Di (2-ethylhexyl) phthalate	117-81-7
Dibutyl phthalate; Di-n-butyl phthalate	84-74-2
Benzyl butyl phthalate; Butyl benzyl phthalate	85-68-7
Diisobutyl phthalate; Di-i-butyl phthalate	84-69-5

#### Appendix-1.5 TSCA Priority chemicals (PBT, First 10 Chemical Substances)

Substances	CAS No.
Decabromodiphenyl ether (DecaBDE)	1163-19-5
Phenol, Isopropylated Phosphate (PIP) (3 : 1)	68937-41-7
2, 4, 6 —Tris (tert-butyl) phenol (TTBP)	732-26-3
Pentachlorothiophenol (PCTP)	133-49-3
Hexachlorobutadiene (HCBD)	87-68-3
Methylene Chloride	75-09-2

1-Bromopropane	106-94-5
Cyclic Aliphatic Bromide Cluster (HBCD)	25637-99-4 3194-55-6 3194-57-8
Asbestos	1332-21-4
Carbon Tetrachloride	56-23-5
1,4-dioxane	123-91-1
N-Methylpyrrolidone (NMP)	872-50-4
Perchloroethylene	127-18-4
Pigment Violet 29	81-33-4
Trichloroethylene (TCE)	79-01-6

#### Appendix-1.6 Dioxins and Furans

Substances	CAS No.
1,2,3,7,8-Pentachlorodibenzo-p-dioxin	40321-76-4
2,3,7,8-Tetrachlorodibenzofuran	51207-31-9
2,3,4,7,8-Pentachlorodibenzofuran	57117-31-4
2,3,7,8-Tetrachlorodibenzo-p-dioxin	1746-01-6
1,2,3,4,7,8-Hexachlorodibenzo-p-dioxin	39227-28-6
1,2,3,6,7,8-Hexachlorodibenzo-p-dioxin	57653-85-7
1,2,3,7,8,9-Hexachlorodibenzo-p-dioxin	19408-74-3
1,2,3,7,8-Pentachlorodibenzofuran	57117-41-6
1,2,3,4,7,8-Hexachlorodibenzofuran	70648-26-9
1,2,3,6,7,8-Hexachlorodibenzofuran	57117-44-9
1,2,3,7,8,9-Hexachlorodibenzofuran	72918-21-9
2,3,4,6,7,8-Hexachlorodibenzofuran	60851-34-5
1,2,3,4,6,7,8-Heptachlorodibenzo-p-dioxin	35822-46-9
1,2,3,4,6,7,8,9-Octachlorodibenzo-p-dioxin	3268-87-9
1,2,3,4,6,7,8-Heptachlorodibenzofuran	67562-39-4
1,2,3,4,7,8,9-Heptachlorodibenzofuran	55673-89-7
1,2,3,4,6,7,8,9-Octachlorodibenzofuran	39001-02-0
2,3,7,8-Tetrabromodibenzo-p-dioxin	50585-41-6
1,2,3,7,8-Pentabromodibenzo-p-dioxin	109333-34-8
2,3,7,8-Tetrabromodibenzofuran	67733-57-7
2,3,4,7,8-Pentabromodibenzofuran	131166-92-2
1,2,3,4,7,8-Hexabromodibenzo-p-dioxin	110999-44-5

1,2,3,6,7,8-Hexabromodibenzo-p-dioxin	110999-45-6
1,2,3,7,8,9-Hexabromodibenzo-p-dioxin	110999-46-7
1,2,3,7,8-Pentabromodibenzofuran	107555-93-1

#### Appendix-1.7 Chlorinated Phenols

Substances	CAS No.
2,3,4,5-Tetrachlorophenol (2,3,4,5-TeCP)	4901-51-3
2,3,4,6-Tetrachlorophenol (2,3,4,6-TeCP)	58-90-2
2,3,5-Trichlorophenol (2,3,5-TCP)	933-78-8
2,3,5,6-Tetrachlorophenol (2,3,5,6-TeCP)	935-95-5
2,3,6-Trichlorophenol (2,3,6-TCP)	933-75-5
2,4,6-Trichlorophenol (2,4,6-TCP)	88-06-2
3,4,5-Trichlorophenol (3,4,5-TCP)	609-19-8
Pentachlorophenol	87-86-5
Tetrachlorophenol, including isomers	25167-83-3
Trichlorophenol, including isomers	25167-82-2

#### Appendix-1.8 Colorants

Substances	CAS No.
Acid Red 26	3761-53-3
Basic Red 9	569-61-9
Basic Violet 14	632-99-5
Direct Black 38	1937-37-7
Direct Blue 6	2602-46-2

Solvent Blue 4	6786-83-0

**Appendix-1.9 Pesticides**

Substances	CAS No.
Aldrine	309-00-2
Azinphos ethyl	2642-71-9
Azinphos methyl	86-50-0
Bromophos-ethyl	4824-78-6
Captafol	2425-06-1
Carbaryl	63-25-2
Chlordane	54-74-9
Chlordecone	143-50-0
Chlordimeform	6164-98-3
Chlorfenvinphos	470-90-6
Coumaphos	56-72-4
Cyfluthrin	68359-37-5
Cyhalothrin, $\lambda$ -	91465-08-6
Cypermethrin	52315-07-8
Deltamethrin	52918-63-5
Demeton	919-86-8
Diazinon	333-41-5
o,p'-Dichlorodiphenyldichloroethane (o,p'-DDD)	53-19-0
p,p'-Dichlorodiphenyldichloroethane (p,p'-DDD)	72-54-8
o,p'-Dichlorodiphenyldichloroethylene (o,p'-DDE)	3424-82-6
p,p'-Dichlorodiphenyldichloroethylene (p,p'-DDE)	72-55-9
o,p'-Dichlorodiphenyltrichloroethane (o,p'-DDT) and its isomers; preparations containing DDT and its isomers	789-02-6
p,p'-Dichlorodiphenyltrichloroethane (p,p'-DDT) and its isomers; preparations containing DDT and its isomers	50-29-3
2,4-Dichlorophenoxyacetic acid, its salts and compounds	94-75-7
Dichlorprop	120-36-5
Dicrotophos	141-66-2
Dieldrine	60-57-1
Dimethoate	60-51-5
Dinoseb and salts	88-85-7
Endosulfan, alpha	959-98-8
Endosulfan, beta	33213-65-9
Endrine	72-20-8
Esfenvalerate	66230-04-4

Ethyl parathion	56-38-2
Fenvalerate	51630-58-1
Heptachlor	76-44-8
Heptachloroepoxide	1024-57-3
Hexachlorobenzene	118-74-1
Hexachlorocyclohexane (HCH), all isomers	608-73-1
Isodrin	465-73-6
Kelevane	4234-79-1
Lindane	58-89-9
Malathion	121-75-5
MCPA	94-74-6
MCPB	94-81-5
Mecoprop	93-65-2
Methamidophos	10265-92-6
Methoxychlor	72-43-5
Methyl parathion	298-00-0
Mevinophos	7786-34-7
Mirex	2385-85-5
Monocrotophos	6923-22-4
Perthane	72-56-0
Profenophos	41198-08-7
Propetamphos	31218-83-4
Quinalphos	13593-03-8
Quintozene (pentachlorobenzene)	82-68-8
Strobane	8001-50-1
Telodrin	297-78-9
Toxaphene	8001-35-2
Tribufos (DEF)	78-48-8
2,4,5-Trichlorophenoxyacetic acid, salts and compounds	93-76-5
2-(2,4,5-Trichlorophenoxy)propionic acid, salts and compounds	93-72-1
Trifluralin	1582-09-8

**Appendix-1.10 Organictin Compounds**

Substances	CAS No.
Monobutyltin (MBT) Compounds	-
Monooctyltin (MOT) Compounds	-
Dibutyltin Dichloride	683-18-1
Dibutyltin (DBT) Compounds	-
Diocetyl tin (DOT) Compounds	-
Tetrabutyltin (TeBT)	-
Tetraoctyltin (TeOT)	-
Tributyltin (TBT) Compounds	-
Tributyltin Oxide	56-35-9
Tricyclohexyltin (TCyT) Compounds	-
Triphenyltin (TPhT) Compounds	-
Triphenyltin Hydroxide	76-87-9

**Appendix-1.11 Acrylates monomers Group1**

Substances	CAS No.
1,6-Hexanediol diacrylate	13048-33-4
2-(2-Ethoxyethoxy)ethyl acrylate	7328-17-8
2-Acryloyloxyethyl butylcarbamate	63225-53-6
2-Phenoxyethyl acrylate(PHEA)	48145-04-6
4-tert-Butylcyclohexyl acrylate(TBCHA)	84100-23-2
Butanediol diacrylate	1070-70-8
Isobornyl acrylate	5888-33-5
Tetrahydrofurfuryl acrylate	2399-48-6
Trimethylo lpropane triacrylate	15625-89-5
Tripropylene glycol diacrylate	42978-66-5

**Appendix-1.12 Biocides**

Substances	CAS No.
2-bromo-2-(bromomethyl)pentanedinitrile (DBDCB)	35691-65-7
2-(Thiocyanatomethylthio) benzothiazole (TCMTB)	21564-17-0
Carbendazim	10605-21-7
Chlorocresol	59-50-7
Fludioxonil	131341-86-1

Glutaraldehyde	111-30-8
3-iodo-2-propynylbutylcarbamate (IPBC)	55406-53-6
N,N'-methylenebismorpholine (MBM)	5625-90-1
O-Phenylphenol	90-43-7
Propiconazole	60207-90-1
Tebuconazole	107534-96-3
Tolyfluanid	731-27-1
Bronopol	52-51-7
Diazolindinyl urea	78491-02-8
1,3-Dimethylol-5,5-dimethylhydantoin	6440-58-0
Quaternium-15	4080-31-3
Imidazolindinyl urea	39236-46-9
Benzisothiazolone (BIT)	2634-33-5
Dichlorooctylisothiazolinone (DCOIT)	64359-81-5
2-Methyl-1,2-benzisothiazolin-3-one (MBIT)	2527-66-4
Methylchlorisothiazolinone (CIT)	26172-55-4
Methylisothiazolinone (MIT)	2682-20-4
Mixture (3:1) of CIT and MIT	55965-84-9
n-Octylisothiazolinone (OIT)	26530-20-1
2-Butanone, peroxide	1338-23-4
2-Chloroacetamide	79-07-2
4,4-dimethyloxazolidine	51200-87-4
Benzalkonium chloride	8001-54-5
Cetrimonium bromide	57-09-0
Cetrimonium chloride	112-02-7
Cu-HDO	312600-89-8
Dichlorophen	97-23-4
Folpet	133-07-3
Guanidine, N,N'''-1,6-hexanediylbis[N'-cyano-, polymer with 1,6-hexanediamine, hydrochloride	27083-27-8

Permethrin	52645-53-1
Thiourea	62-56-6
Triclosan	3380-34-5

Chemical Composition Table and Global Registration Status

Product name		Product category	
--------------	--	------------------	--

- Guideline
- Composition information : Please fill in all composition information so as the total of concentration becomes 100 % as a general rule.  
If the information of the substances which are listed in "Environmentally Hazardous Chemical Substances List of NAMICS Green Procurement Standards" is known regardless of whether its content is lower than Threshold limits or not, report them below.  
If the content of the substances is not clear, report the estimated maximum amount based on design. (\* Please report a reference value, not a guaranteed value.)
- NAMICS Green Procurement Standards : For each substance filled in the column of Composition information, please select classification following NAMICS Green Procurement Standards  
In addition, if the concentration of reduced substances is more than allowable concentration, fill in "Reduced substances" Alternative plan.
- Global Registration Status : Please select Circle"O" if all components of the product are registered in existing chemical substances lists of each country or they are out of the scope of the concerned regulations.  
Please select Cross "x" if the product contains a new and non-registered component.  
If Classification of inclusion is "Impurity," it can be excluded from consideration.  
If Product category is "Indirect materials," it is unnecessary to judge this status.

Information of halogen content: If you have any information or data about "Total Chlorine" and "Total Bromine," please fill in the column.

※ Please fill in the parts in yellow.

## NAMICS Green Procurement Standards Substance list

This list is reference information for the clause of "NAMICS Green Procurement Standards" in Attached Form 3.

Regarding "the scope" of substances, please refer to "Environmentally Hazardous Chemical Substances List of NAMICS Green Procurement Standard

Regulated Level	Reference No.	Substances Name
Level 1	P1001	Cadmium and its compounds
Level 1	P1002	Lead and its compounds
Managed Substances	M001	<i>Lead and its compounds (Excluded)</i>
Level 1	P1003	Mercury and its compounds
Level 1	P1004	Hexavalent chromium compounds
Level 1	P1005	Total-concentration of four heavy metals (cadmium, lead, mercury, and hexavalent chromium) contained in packaging components and materials
Level 1	P1006	Polybrominated biphenyls (PBB)
Level 1	P1007	Polybrominated diphenylethers (PBDE) (including decabromodiphenyl ether [DecaBDE])
Level 1	P1008	Hexabromocyclododecane (HBCDD)
Level 1	P1009	Polychlorinated biphenyls (PCB)
Level 1	P1010	Polychlorinated naphthalenes (PCN)
Level 1	P1011	Polychlorinated terphenyls (PCT)
Level 1	P1012	Chlorinated paraffins (CP)
Level 1	P1013	Polyvinyl chloride (PVC) and PVC blends
Level 1	P1014	Hydrofluorocarbon (HFC), Perfluorocarbon (PFC), Sulfur hexafluoride(SF6)
Level 1	P1015	Ozone depleting substances (ODS)
Level 1	P1016	Hydrochlorofluorocarbon (HCFC)
Level 1	P1017	Perfluorooctane sulfonates (PFOS) and individual salts and related substances of PFOS
Level 1	P1018	Perfluorooctanoic Acid (PFOA) and individual salts and related substances of PFOA
Level 1	P1019	Beryllium and its compounds
Level 1	P1020	Cobalt dichloride
Level 1	P1021	Arsenic and its compounds
Level 1	P1022	Asbestos
Level 1	P1023	Specific azo compounds (Azodyes that form specific amine compounds and specific amine compounds.)
Level 1	P1024	Formaldehyde
Reduced Substances	R001	<i>Formaldehyde (Excluded)</i>
Level 1	P1025	Benzenamine, N-phenyl-, reaction products with styrene and 2,4,4-trimethylpentene (BNST)
Level 1	P1026	Dimethyl fumarate (DMF)
Level 1	P1027	Polycyclic aromatic hydrocarbons (PAHs)
Level 1	P1028	Benzene
Level 1	P1029	Hexachlorobenzene
Level 1	P1030	Minerals from Conflict-Affected and High-Risk Areas(CAHRAs)
Level 1	P1031	Radioactive substances [Uranium (U), Plutonium (Pu), Radon (Rn),Americium (Am), Thorium(Th) , Cesium(Cs) , Strontium (Sr),etc.]
Level 1	P1032	Red phosphorus / Yellow phosphorus
Level 1	P1033	Specific phthalates (DEHP/DBP/BBP/DIBP)
Level 1	P1034	Tris(isopropylphenyl) phosphate
Level 1	P1035	Perfluorohexanoic acid (PFHxA) and its salts and related substances
Level 1	P1036	Decabromodiphenylethane (DBDPE)
Level 1	P1037	"Dechlorane Plus"™
Level 1	P1038	Long-chain perfluoroalkyl carboxylate (LCPFACs) and perfluoroalkyl sulfonate chemicals
Level 1	P1039	TSCA Priority chemicals (PBT, First 10 Chemical Substances)
Level 1	P1040	Acrylamide (monomer)
Level 1	P1041	Dioxins and Furans
Level 1	P1042	Chlorinated Phenols
Level 1	P1043	Colorants
Level 1	P1044	Perfluorohexanoic acid (PFHxA) and its salts and related substances
Level 1	P1045	Methyl-phenol compounds

Level 1	P1046	Pesticides
Level 1	P1047	UV stabilizers
Level 1	P1048	Long-chain perfluorocarboxylic acids (PFCAs) C9-C20 and its salts and related substances
Level 1	P1049	Perfluorocarboxylic acids (PFCAs) C9-C14 and its salts and related substances
Level 1	P1050	Halogenated diphenyl methanes
Level 1	P1051	Natural rubber, latex
Level 1	P1052	Perchlorates
Level 2	P2001	Organotin Compounds
Level 2	P2002	Acrylates monomers Group1
Level 2	P2003	PFAS (Per-and Polyfluoroalkyl Substances)
Level 2	P2004	Biocides
Level 2	P2005	Perfluorobutanesulfonic acid (PFBS) and its related substances
Regulated Level	Reference No.	Substances Name
Reduced Substances	R002	Other phthalates (Exemption-Regulated Substances)
Reduced Substances	R003	Boric acid, Specific sodium borates
Reduced Substances	R004	4-(1,1,3,3-tetramethylbutyl) phenol
Reduced Substances	R005	Bis(2-methoxyethyl) ether
Reduced Substances	R006	N,N-dimethylacetamide (DMAC)
Reduced Substances	R007	Ethylene glycol dimethyl ether (EGDME)
Reduced Substances	R008	Trixylyl phosphate (TXP)
Reduced Substances	R009	2-ethylhexyl 10-ethyl-4,4-dioctyl-7-oxo-8-oxa-3,5-dithia-4-stannatetradecanoate (DOTE)
Reduced Substances	R010	Reaction mass of 2-ethylhexyl 10-ethyl-4,4-dioctyl-7-oxo-8-oxa-3,5-dithia-4-stannatetradecanoate and 2-ethylhexyl 10-ethyl-4-[[2-[(2-ethylhexyl)oxy]-2-oxoethyl]thio]-4-octyl-7-oxo-8-oxa-3,5-dithia-4-stannatetradecanoate (reaction mass of DOTE and MOTE)
Reduced Substances	R011	REACH SVHC
Reduced Substances	R012	Acrylates monomers Group2
Reduced Substances	R013	Alkylphenol Ethoxylates and Alkylphenols(APEO/AP)
Reduced Substances	R014	Bisphenols (Bisphenol A, Bisphenol F, Bisphenol S)
Reduced Substances	R015	Diphenylamine
Reduced Substances	R016	n-Hexane
Reduced Substances	R017	Chlorinated organic solvents
Reduced Substances	R018	Halogenated flame retardants
Reduced Substances	R019	Epichlorohydrin
Reduced Substances	R020	2-Phenyl-2-propanol
Reduced Substances	R021	Diphenylthiourea
Reduced Substances	R022	Estragole
Reduced Substances	R023	Hexamethylenetetramine
Reduced Substances	R024	Mercaptobenzothiazole (2-MBT)
Reduced Substances	R025	Methyl phenylglyoxylate
Reduced Substances	R026	2-Aminoethanol
Reduced Substances	R027	Methacrylates
Reduced Substances	R028	N-Nitrosamines
Reduced Substances	R029	Solvents
Regulated Level	Reference No.	Substances Name
Managed Substances	M002	Other Polycyclic aromatic hydrocarbons (PAHs)
Managed Substances	M003	Antimony and its compounds
Managed Substances	M004	Bismuth and its compounds
Managed Substances	M005	Other brominated organic compounds
Managed Substances	M006	Other chlorinated organic compounds
Managed Substances	M007	Cobalt and its compounds
Managed Substances	M008	Fluoride and its compounds excluding the regulated substances specified by these standards
Managed Substances	M009	Iodine and its compounds excluding the regulated substances specified by these standards
Managed Substances	M010	chemSHERPA Declarable Substance Ver. (latest Version) excluding the regulated substances specified by these standards
Managed Substances	M011	Low molecular siloxane ( $\leq 20$ mer)

Managed Substances	M012	Nanomaterials (Particle size : 1~100nm)
Managed Substances	M013	Phosphorus and its compounds
Managed Substances	M014	Cyan compounds
Managed Substances	M015	Sulfur and its compounds
Managed Substances	M016	Zinc and its compounds
Managed Substances	M017	Titanium and its compounds
Managed Substances	M018	Volatile organic compounds (VOCs)
Managed Substances	M019	Rare metal
Managed Substances	M020	TSCA Priority chemicals (20 High-Priority Substances)
Managed Substances	M021	Barium and its compounds
Managed Substances	M022	Chromium, extractable (Excluded : Hexavalent chromium)
Managed Substances	M023	Isocyanates (monomers)
Managed Substances	M024	Nickel and its compounds
Managed Substances	M025	Mica
Managed Substances	M026	Gold, Tin, Tantalum and Tungsten (other than P1030)
Managed Substances	M027	Benzyl Alcohol
Managed Substances	M028	Glycidyl ether monomers
Managed Substances	M029	Aluminum and its compounds
Managed Substances	M030	Lithium and its compounds
Managed Substances	M031	Magnesium and its compounds
Managed Substances	M032	Copper and its compounds

## NAMICS Green Procurement Standards\_Revision Records

Revision No.	Established/ Revised on	Revision	Reason for revision	Established/ Revised by
9	2012/11/30	To add the environmental policy. To review the overall structure.	To make the contents more easily understood.	QA Div.
10	2014/9/19	5 To add the explanation about the case where the vendor is not the manufacturer.	To make the procedures match with actual operations.	QA Div.
		7.4(1) To add the explanation about the case where the vendor is not the manufacturer.		
		7.4(5) 4) To add the explanation about reference No.		
		6.2(6) Change control --> Change management process change notice (PCN) --> Change Application Sheet (for supplier)	To correct an error.	
		7.4 (6) Set of SDS and MSDSplus --> (6) SDS, (7) MSDSplus	To separate the section (6), 7.4 to (6) SDS and (7) MSDS plus based on the review of the List.	
		7.4(7) 3) To add 3) under (7), 7.4.	To ensure that a vendor submits the latest MSDSplus.	
		7.4(7) 4) To add 4) under (7), 7.4.	When the item subject to survey is an indirect material, to require a vendor to submit a necessary document, following the actual operation.	
		7.5 To review the list.	To require a vendor to submit MSDSplus. To require a vendor to submit Attached Form 4 (Chemical composition talbe) only when there is any change.	
		7.5(2) To add a few explanations.	To have a vendor understand the point of the survey.	
11	2016/4/25	3 .3(1) To add a few explanations.	To specify the requirements.	QA Div.
		3 .3(2) To add new regulated level: "Reduced Substances"		
		3 .4 To add some definition of terms		
		7.4(2) Overall revisions	Review "Attached Form 2"	
		7.4(3) Overall revisions	Review "Attached Form 3"	
		7.5 To review the list.	To require a vendor to submit Attached Form 3 (Chemical composition table and Global registration status) .	
		Revise the related specification name to "NAMICS Green Procurement Standards Environmentally Hazardous Chemical Substances List"	In order to follow Definition of Terms in "NAMICS Green Procurement Standards Document".	
		Review various Attached Forms.	In order to increase the consistency with requirements of "NAMICS Green Procurement Standards Document".	
		12	2017/6/16	
5.2(3) To add a case subject to report.				
7.4 (3) To add Phthalates as analysis items.	To prepare for the revision of the restricted substances under RoHS Directive.			
7.4(6) Overall revisions	As "chemSHERPA" is introduced as a submission-required document.			
7.5 To revise the list based on the review.				

Revision No.	Established/ Revised on	Revision	Reason for revision	Established/ Revised by
13	2018/6/29	7.4 (3) To add Phthalates as mandatory analysis items for raw materials and other materials.	To prepare for the revision of the restricted substances under RoHS Directive.	QA Div.
		7.4(6) To delete MSDSplus from documents to be submitted.	To completely shift to chemSHERPA.	
14	2019/6/28	To delete 3.4 (7) High-precision analysis.	To summarize analysis-related requirements in 7.4 (3).	QA Div.
		7.4(3) To revise some parts about analysis requirements.		
		7.4(3) To make the substances subject to analysis for raw materials and those for indirect materials same.	To conform to current requirements.	
		7.4(6) To revise the link to download chemSHERPA.	As the link to download chemSHERPA was updated.	
		7.4(6) To revise what need to be paid attention when creating chemSHERPA.	To conform to current requirements.	
		7.5 To specify the required documents for raw materials and those for indirect materials separately. To make the requirements for indirect materials less than those for direct materials.	Based on the review of necessary information.	
15	2020/6/30	7.4(1) , 9.2(2) To revise the way of distributing NAMICS Green Procurement Standards Document.	As NAMICS Green Procurement Standards Document started to be posted in NAMICS website.	QA Div.
16	2021/7/30	Contents To revise wording.	Based on the review.	QA Div.
		3.3(1) Overall revisions.	Based on the review of Form 2.	
		3.4(6) To revise impurity's definition.	To make the description more specific.	
		5.1 Overall revisions.	Based on the review of Form 2.	
		5.2(1)1) Overall revisions.		
		7.4(2) To revise some explanations about Form 2.		
		7.4(4)5) To add a relevant law.	Based on the review of Form 3.	
17	2022/6/30	To revise Form2 and Form3	Based on the review of "NAMICS Green Procurement Standards Environmentally hazardous chemical substances list".	QA Div.
